PERSONAL
INFORMATION

Date of Birth: 14.01.1977
Place of Birth: Lienz, Tirol (Austria)
Citizenship: Austria

RESEARCH
INTERESTS

Probability Theory & Mathematical Statistics, Fractals, Analysis

- Copulas and Dependence Modeling
- Multivariate and Nonparametric Statistics
- Dynamical Systems (in discrete time) and their interplay with number theory
- Fractals, Singular Functions and Iterated Function Systems
- Markov Operators and Kernels
- Lineability, spaceability, algebraability, latticeability

Applied Statistics & Data Science

- Probabilistic fundamentals of Machine Learning
- Forecasting and Regression Techniques
- Feature Selection
- Dependence Modeling of processes
- Automatic Reporting with R and Miktex (knitR, R-Markdown)
- Interactive Dashboards with R-shiny, interactive graphics with plotly

SHORTLIST
POSITIONS

- Full professorship ‘Statistics’ (direct call from abroad) at the University of Bozen, 1st place (05/2023), declined
- Full professorship §99 UG ‘Statistics’ at the University of Klagenfurt, 1st place (11/2019), not invited to negotiations
- Associate professorship ‘Statistics’ at the University of Bozen, 2nd place (10/2017)
- Full professorship §98 UG ‘Applied Statistics’ at the Technical University Graz, 3rd place (02/2017)

HONORS

- Gambrinus Fellowship of the Technical University of Dortmund (DE); collaboration partner: Prof. Dr. Karl Friedrich Siburg (06/2019)
- Winner of the University of Salzburg’s Kurt-Zopf-Förderpreis 2018 (for the paper [22])
- Winner of the University of Salzburg’s Excellence in Teaching Award (category: best lecture); for the course ‘Fractals and Chance’ (05/2017)
- Winner of the Austrian Statistical Association’s price for dissertations in Mathematical Statistics (2007)
- Excellence Scholarship of the Vienna University of Technology (1996-1999, 2002)

EDITORIAL WORK

- Associate Editor for *Biometrical Journal*
- Associate Editor for *Econometrics and Statistics (EcoSta)*
- Guest Co-editor for the Dependence Modeling Special Issue for the Salzburg workshop on Dependence Models & Copulas
- Editorial Advisory Board member of Dependence Modeling (appointed for the period 2018-01-01 till 2023-12-31)
- Editorial Board member of *Fuzzy Sets and Systems*
- Editorial Board member of *Austrian Journal of Statistics*

REFeree

Applied Mathematics Letters; Austrian Journal of Statistics; Bernoulli; Canadian Journal of Statistics; Chaos, Solitons & Fractals; Communications in Statistics; Computational Statistics and Data Analysis; Computers and Mathematics with Applications; Dependence Modeling; Econometrics; Electronic Journal of Statistics; European Actuarial Journal; European Journal of Operational Research; Extremes; Fuzzy Sets and Systems; Heliyon Mathematics; IEEE Transactions on Fuzzy Systems; Information Sciences; International Journal of Approximate Reasoning; International Journal of Geographical Information Science; International Journal of Uncertainty; Journal of Computational and Applied Mathematics; Journal of Mathematical Analysis and Applications; Journal of Multivariate Analysis; Journal of Statistical Planning and Inference; Journal of the American Statistical Association; Knowledge-Based Systems; Kybernetika; Letters in Biomathematics; Mathematical Reviews; Mechanical Systems and Signal Processing; Metrika; Risks; Soft Computing; Statistics & Probability Letters; TEST

SCIENTIFIC
COMMITTEES

- Co-Chair of the specialized team on Dependence Models and Copulas within the ERCIM Workgroup on Computational and Methodological Statistics (together with Fabrizio Durante and Ivan Kojadinovic)
- Co-Chair of the SMPS 2024 conference, Salzburg, 2024 (together with Jonathan Ansari and Sebastian Fuchs)
- Management committee member (rep. Austria) of the ICT COST Action IC1408 CRoNoS (Computationally-intensive methods for the robust analysis of non-standard data)
- Local Co-Organizer of the 10th International Workshop on Simulation and Statistics, September 02-06 2019, Salzburg, Austria
- Chair of the Austrian Stochastic Days 2017 (as satellite meeting of the ÖMG-DMV congress 2017), September 12-13, Salzburg, Austria
- Organizer of the session *Recent advances in dependence modelling and optimization* at the Workshop on Copulas and Their Applications celebrating the 75th birthday of Roger B. Nelsen, July 03-05, 2017, Almería, Spain
- Co-Organizer of the sessions *Dependence models and copulas I-IV* at the CMStatistics 2016, December 09-11 2016, Seville, Spain (together with Fabrizio Durante)
- Chair of the Salzburg Workshop on Dependence Models and Copulas, September 19-22 2016, Salzburg, Austria
- Co-Organizer of the session *Data Analysis with Dependence Models* at the SMPS 2016, September 12-14 2016, Rome, Italy (together with Fabrizio Durante)
- Co-Organizer of the sessions *Dependence models and copulas I-III* at the CMStatistics 2015, December 12-14 2015, London, UK (together with Fabrizio Durante)
- Organizer of the session *Copulas* at the Österreichische Statistiktage 2015, October 21-23 2015, Vienna, Austria
- Co-Organizer of the sessions *Dependence models and copulas: Theory* and *Dependence models and copulas: Applications* at the ERCIM 2014, December 6-8 2014, Pisa, Italy (together with Fabrizio Durante)
- Co-Organizer of the sessions *Mathematical Aspects of Copulas I + II*, *Dependence Models in Environmental Sciences* at the ERCIM 2013, December 14-16 2013, Senate House, University of London, London, UK (together with Fabrizio Durante)
- Organizer of the sessions *Copulas I-III* at the ERCIM 2012, December 1-3 2012, Conference Centre, Oviedo, Spain
- Co-Chair of the Fifth International Conference on Soft Methods in Probability and Statistics SMPS 2010, September 28 - October 1 2010, Oviedo/Mieres, Spain
- Organizer of the session *Statistics with fuzzy or incomplete data* at the ERCIM 2009, October 29-31 2009, Grand Resort Hotel, Limassol, Cyprus

INVITED TALKS
(SINCE 2015)

- *Quantifying and estimating (multivariate) directed dependence*, at the SMPS 2022, September 15 2022, Valladolid, Spain
- *Quantifying and estimating (multivariate) directed dependence*, at the CDAM: Stochastics and Data Science, September 07 2022, Minsk, Belarus, online (*invited plenary speaker*)
- *Mathematical aspects of copulas*, at the Mathematisches Kolloquium @TU Dortmund, June 27 2022, Dortmund, Germany
- *Forecasting täglicher Verkaufszahlen in Supermärkten: mögliche Methodik, der Einfluss von Promotionen und Kannibalismus-Effekte*, at the 17th Predictive Analytics Konferenz, October 12-13 2021, Vienna, Austria
- *Stochastic (dynamical and topological) aspects of copulas*, at the Oberseminar Analysis, Mathematische Physik & Dynamische Systeme @TU Dortmund, June 29 2021, via zoom
- *Quantifying And Estimating Asymmetric Dependence*, at the 10th International Workshop on Simulation and Statistics, September 02-06 2019, Salzburg, Austria
- *Quantifying asymmetric dependence with the R-package qad*, at the Symposium: Ecology — Geomorphology — Statistics, March 28-29 2019, Salzburg, Austria (*keynote speaker*)
- *The Markov product of copulas revisited*, at the CMStatistics 2018 (ERCIM 2018), December 14-16 2018, Pisa, Italy
- *On the interrelation between Kendall's τ and Spearman's ρ* , at the International Statistics Festival Ulm, September 17-18 2018, University of Ulm, Germany
- *Stochastic, dynamical and topological aspects of copulas*, at the 7th Austrian Stochastics Days, September 13-14 2018, Vienna University of Economics and Business, Austria (*keynote speaker*)
- *Complete dependence everywhere?*, at the Workshop on Copulas and Their Applications celebrating the 75th birthday of Roger B. Nelsen, July 03-05, 2017, Almería, Spain
- *Complete dependence everywhere?*, Vienna University of Technology, May 08 2017, Vienna, Austria
- *Three copula-based optimization problems and an excursion*, at the CMStatistics 2016, December 09-11 2016, Seville, Spain
- *On sharp inequalities between Kendall's τ and Spearman's ρ* , at the CMStatistics 2015, December 12 2015, London, UK

TEACHING
EXPERIENCE

University of Salzburg, Salzburg, Austria

Full/Associate/Assistant Professor

since 10/2013

- (Mathematical) Statistics (Lecture and Exercise for Bachelor Students in Mathematics, 2+1h, 5th Semester), 7 times
- Fractals and Chance (Lecture for Bachelor/Master Students of Mathematics, 2h), 3 times
- Applied (mathematical) Statistics (Lecture and exercise for Bachelor Students in Mathematics, 2h, 6th semester), 5 times
- PhD Seminar Statistics (for PhD Students in Mathematics, 1h), together with Arne Bathke, 14 times
- (Elementary) Regression Methods & Computational Statistics (Lecture for Master Students in Data Science, 2h), 3 times
- Dependence Modelling (Lecture and Exercise for Master and PhD Students in Mathematics, 3h), 3 times
- Markov Processes in discrete time (Lecture for Master Students in Mathematics, 2h)
- Introduction to Ergodic Theory (Lecture for Bachelor/Master Students of Mathematics, 2h)
- Research Seminar Stochastics (Seminar for Master and PhD Students in Mathematics, 1-2h)
- Statistics, Visualization and More Using R (Seminar/Computer Lab for Master- and PhD Students in Psychology and Master Students in Data Science, 2h), 4 times
- Introductory statistics for earth scientists (Lecture and exercise for Bachelor Students in Geology, 2h), 2 times

- Interpreting and Presenting Statistical Analyses (Seminar for Master Students in Data Science, 2h), together with Arne Bathke, 2 times
- Case Studies (Seminar for Master Students in Data Science, 2h), together with Nikolaus Augsten, Arne Bathke and Roland Kwitt, 2 times
- R Introduction via Applied Statistics (Seminar/Computer Lab for PhD Students in Psychology, 2h), together with Walter Gruber, 3 times
- Scientific Computing with Matlab and R (Lecture/Exercise for Bachelor Students in Mathematics, 3h), together with Lothar Banz, 3 times
- Introduction to Data Science (Lecture/exercise for Master Students Data Science, 1h), together with Nikolaus Augsten, Arne Bathke, Christian Borgelt, and Roland Kwitt, 2 times
- R for advanced users (Seminar/Computer Lab for PhD Students in Psychology, 2h), together with Walter Gruber, 2 times
- Mathematical Software R/Matlab/Mathematica (Lecture for Bachelor Students in Mathematics, 3h), together with Lothar Banz and Andreas Schröder, 2 times
- Automatic reporting with knitR (training and further education for employees of University Salzburg, 1h)
- (Basic) Mathematics for Neuroscientists (for PhD students of the DK Imaging the Mind, 1h)
- Refresher course Applied Statistics (training and further education for employees of University Salzburg, 1h)
- Stochastic modeling (Exercise for Students of Mathematics, 4th Semester, 2h), 2 times
- Mathematics I and Mathematics II (Exercise for Students of Material Sciences, 2h)

European Centre for Soft Computing, Mieres, Spain

Lecturer

2010 - 2012

- Introduction to R (Seminar/Lecture)
- R Computer Lab

Vienna University of Technology, Vienna, Austria

Teaching assistant

1999 - 2008

- Measure and Probability Theory (Exercise), 3 times
- Applied Statistics for Mathematicians (Exercise), 3 times
- Introduction to Probability Theory and Statistics (Exercise), 3 times
- Mathematics 1-3 for Electrical Engineers (Exercise), 3 times
- Introduction to Probability Theory and Statistics for Computer Scientists (Exercise), 3 times

SUPERVISION
(PHD)

University of Salzburg, Salzburg, Austria

- Nicolas Dietrich (PhD student in Mathematics), since 07/2021
- Marco Tschimpke (PhD student in Mathematics), since 01/2021
- Thomas Mroz (part-time PhD student in Mathematics), since 10/2015
- Thimo Kasper: *New results for special classes of (multivariate) copulas and some consequences to estimating dependence*, finished 12/2022
- Florian Griessenberger: *A new (multivariate) copula-based measure of dependence and some additional results in dependence modeling*, finished 06/2022
- Julian von Schleinitz (PhD student in Data Science, co-supervision): *Machine Learning based Data Analysis at the Limit of Driving Dynamics*, finished 02/2022
- Noppadon Kamnitui: *Special Classes of Copulas and their Properties*, finished 10/2019
- Manuela Schreyer: *Some new results in copula theory*, finished 10/2018

SUPERVISION
(MASTER)

University of Salzburg, Salzburg, Austria

- Magdalena Tovilo (Master student in Data Science), since 03/2023
- Melanie Löckinger (Master student in Data Science), since 02/2023
- Lea Maislinger (Master student in Mathematics), since 11/2022
- Anna-Lena Graf (Master student in Data Science): *Modern methods for unsupervised and supervised feature selection applied to the automotive industry*, finished 09/2023

- Mohamed Mbaye (AIMS Senegal Master student): *The copula based dependence measure ζ_1 and its estimator*, finished 07/2023
- Nina Marie Schmitzberger (Master student in Mathematics, in collaboration with BMW group): *Dependence Modelling and Association Rule Mining for Dynamic Error Classification in the Automotive Industry*, finished 04/2021
- Marco Tschimpke (Master student in Mathematics): *Markov product invariance in classes of bivariate copulas characterized by univariate functions*, finished 12/2020
- Lukas Klaffenböck (Master student in Mathematics): *The consistency of the CART-Algorithm and a special case of random forests*, finished 12/2020
- Alexander Roßmann (Master student in Mathematics): *On weak conditional convergence of copulas and related concepts*, finished 10/2020
- Iris Rammelmüller (Master student in Mathematics, in collaboration with Noemi Castelletti from HelmholtzZentrum münchen): *Biological-Based Models of Carcinogenesis in the Lung from Radiation in the Eldorado cohort*, finished 09/2020
- Klemens Kurtz (Master student in Data Science, in collaboration with KTM Innovation GmbH): *Sensor failure prediction on MotoGP motorcycles*, finished 09/2020
- Simone Müller (Master student in Data Science): *Nightclub detection with image classification using convolutional neural networks*, finished 09/2019
- Marcel Steger (Master student in Data Science, in collaboration with Porsche Informatik): *Methods for Feature Selection*, finished 08/2019
- Florian Griessenberger (Master student in Mathematics): *Measure-theoretic properties of copulas & Quantification of dependence*, finished 10/2018
- Guido Friesacher (Master student in Mathematics): *Analyzing log-returns using Copulas*, finished 10/2016
- Eva Andrea Eder (student teacher in Mathematics/Biology): *Fraktale - Von der Natur inspiriert und durch die Mathematik in die heutige Zeit integriert*, finished 05/2016

European Centre for Soft Computing, Mieres, Spain

- Julia Lastra: *Teoría de Cópulas - Cópulas con soporte fractal*, within the Master in Advanced Mathematics (University of Almería), finished 09/2013, together with Enrique de Amo Artero
- Héctor Fernández Martínez: *Product demand prediction*, within the Master in Soft Computing and Intelligent Data Analysis, finished 07/2010, together with Ana Colubi

SUPERVISION (BACHELOR)

University of Salzburg, Salzburg, Austria

- Lea Maislinger (Bachelor student in Mathematics), *Prognosemodelle für Zeitreihen aus dem Automobilssektor*, finished 10/2021
- Stefanie Schmerbauch (Bachelor student in Mathematics): *Knowing X, knowing Y? Über asymmetrische Abhängigkeit von Zufallsvariablen*, finished 09/2021
- Martin Geroldinger (Bachelor student in Mathematics): *Zeitreihenanalysen und Prognosen: Theorie und Anwendung*, finished 09/2020
- Wanda Lauth (Bachelor student in Mathematics): *Gemischte Lineare Modelle: Theorie und Anwendung zur Beschreibung der Arbeitsmoral*, finished 01/2020
- Selina Miller (Bachelor student in Mathematics): *Regression: eine Anwendung zu 'Time Since Death Estimation' und mathematische Resultate zur Kernel-Regression*, finished 09/2019
- Florian Günther (Bachelor student in Mathematics): *Spieltheorie und Nash-Gleichgewicht*, finished 08/2019
- Nina Marie Schmitzberger (Bachelor student in Mathematics): *Visualisieren von Daten in R mit ggplot2, lineare und nichtparametrische Regression und deren Anwendung in der 'Carotisstudie'*: finished 08/2018
- Jakob Schmollgruber (Bachelor student in Mathematics): *Markov Ketten und Random Walk*, finished 01/2017
- Philipp Schwartenbeck (Bachelor student in Mathematics): *Frequentist and Bayesian parameter estimation*, finished 12/2016
- Gianna Liehr (Bachelor student in Mathematics): *Julia Mengen*, finished 11/2016
- Victoria Racher (Bachelor student in Mathematics): *Eine Anwendung multipler linearer Regression und Grundzüge der Bayes Statistik auf 'Time Since Death Estimation'*, finished 09/2016

- Lukas Helminger (Bachelor student in Mathematics): *Maximierung der Masse des Graphen/Endographen einer nicht fallenden Transformation innerhalb der Klasse der Copulae*, finished 08/2016
- Florian Griessenberger (Bachelor student in Mathematics): *Parametrische und nichtparametrische Regression und ihre Anwendung*, finished 07/2016
- Sebastian Heintze (Bachelor student in Mathematics): *Periodische Punkte und chaotische Eigenschaften von Funktionen*, finished 06/2016

SERVICE TO THE UNIVERSITY

- Deputy head of the department for Artificial Intelligence & Human Interaction (AIHI), since 2022
- Workgroup leader of the Data Science, Statistics and Stochastics group, department for AIHI, since 2022
- Chairman of the habilitation committee of Dr. Sebastian Fuchs, 2022
- Member of the working group on quality development in teaching (AG QE Studium und Lehre), University of Salzburg, 2018-2019
- Member of the Curricularkommission for Bachelor AI, University of Salzburg, since 2022
- Member of the Curricularkommission for Mathematics, University of Salzburg, 2016 - 2019
- Member of the Curricularkommission for Data Science, University of Salzburg, 2016 - 2021
- Deputy-chairman of the appointment committee for the §99 full professorship (Stiftungsprofessur) for Data Science at the University Salzburg, 2017/2018
- Jury member for the University of Salzburg's Excellence in Teaching Award (2018)
- Referee for the Marie Andessner Preise für Diplom- und Masterarbeiten 2017
- Coaching for female students (Bachelor Mathematics), together with Bettina Sereinig
- Active member of the Math2School-Team
- Core faculty member of the Data Science Salzburg initiative

SOFTWARE

R-packages:

- **qmd**: A multivariate copula-based dependence measure (together with Florian Griessenberger and Robert R. Junker)
- **qad**: A copula-based measure for quantifying asymmetry in dependence and associations (together with Florian Griessenberger and Robert R. Junker)
- **Chaos game**: Plot fractal words in dimension two and three (together with Manuela Schreyer)
- **dynRB**: Calculate niche size and overlap using dynamic range boxes (together with Manuela Schreyer, Robert R. Junker, Jonas Kuppler, Arne Bathke)

THIRD-PARTY FUNDING

Data Science PhD, University of Salzburg, Salzburg, Austria

Project leader

2022 -

- Supervision of 1 PhD student in Data Science/Statistics (for 3 years)
- Funded by Red Bull

ProSA - Prozessanalyse Ultraschallanzeigen, University of Salzburg, Salzburg, Austria

Project leader

2021 -

- Development of statistical/machine learning methods for process optimization
- Supervision of 1 PhD student in Data Science/Statistics (for 3 years)
- Funded by AMAG

Chaos Game (Talente: Praktika für Schülerinnen und Schüler 2020), University of Salzburg, Salzburg, Austria

Supervisor

2020

- Improving the R-package ChaosGame
- Funded by Österreichische Forschungsförderungsgesellschaft mbH

IDA Lab Salzburg (Lab for Intelligent Data Analytics), University of Salzburg, Salzburg, Austria

Director 2020 -

- Establishment of a research center with several research teams (lead by 6 postdocs, for 5 years)
- Funded by Land Salzburg (within the WISS 2025)
- Applied research in statistics and machine learning

Sensor failure prediction on MotoGP motorcycles, University of Salzburg, Salzburg, Austria

Project leader 2019 - 2020

- Predictive Maintenance MotoGP sensors
- Funded by KTM Innovation GmbH

Wohnbaudatenbank (Analyse und GUI), University of Salzburg, Salzburg, Austria

Project leader (together with Arne Bathke) 2019 - 2020

- Data analytics Wohnbaudaten
- Funded by the province of Salzburg (im Rahmen der Wohnbauforschungsmittel)

KFZ, University of Salzburg, Salzburg, Austria

Project leader (together with Roland Kwitt) 2019 - 2022

- Basic research in statistics and machine learning
- Supervision of 2 fulltime PhD students in Data Science (for 3 years)
- Funded by Porsche Informatik and Land Salzburg (within the WISS 2025)

Successional Generation of Functional Multidiversity, University of Salzburg, Salzburg, Austria

Cooperation partner of START price winner Robert R. Junker 2018 -

- Responsible for the development of statistical methods for the quantification of asymmetric dependence and the supervision of 1 PhD student (for 3 years)
- Der Standard article on the project (in German)

Data Analytics in Industrial Environments, University of Salzburg, Salzburg, Austria

Project leader (together with Roland Kwitt) 2018

- Data Science: Production of the Future, Smart Sales and Customer Analytics
- For Siemens Austria, Vienna, Austria

Forecasting material requirements, University of Salzburg, Salzburg, Austria

Project leader 2018

- Forecasting techniques, merging of different data sources
- For HAI - Hammerer Aluminium Industries, Ranshofen, Austria

Data Science Endowed Professorship, University of Salzburg, Salzburg, Austria

Co-applicant (together with Arne Bathke) 2018 - 2023

- Data Science Endowed Professorship (5 years) at the University of Salzburg, funded by the province of Salzburg, the City of Salzburg and the Federation of Austrian Industries

NIRS Analysis, University of Salzburg, Salzburg, Austria

Project leader 2017

- Analysis Near Infrared Spectroscopy (NIRS) data
- For Universitätsklinik für Anästhesiologie, perioperative Medizin und allgemeine Intensivmedizin, Salzburg, Austria

Analysis questionnaire data Diacerin for EBS, University of Salzburg, Salzburg, Austria

Project leader 2016

- Statistical testing for positive treatment effects
- For Prof. Dr. Johann Bauer/EB-Haus Austria

- Prozessdatenanalyse Walzenproduktion**, University of Salzburg, Salzburg, Austria
Assistant project leader 2015
- Detection of possible factors relevant for product quality
 - Development of an R-shiny app to simplify data analysis for experts
 - For Eisenwerk Sulzau-Werfen
- SIMOP II project**, European Centre for Soft Computing, Mieres, Spain
Project leader 2012 - 2013
- In collaboration with a regional Spanish supermarket chain
 - Analysis/quantification of the effect of product offers to sales numbers of related products
- SIMOP I project**, European Centre for Soft Computing, Mieres, Spain
Project leader 2011 - 2012
- In collaboration with a regional Spanish supermarket chain
 - Optimization of the delivery system of an Asturian supermarket chain based on the forecasting of daily sales numbers of products during offer and non-offer periods
- Cajacash-project**, European Centre for Soft Computing, Mieres, Spain
Operating project member 2010
- In collaboration with cajastur (Asturian savings bank)
 - Forecasting daily withdrawn amounts at cash machines (ATMs) to improve the cash delivery system
- MICINN-project**, European Centre for Soft Computing, Mieres, Spain
Project leader (since 2011) 2010 - 2012
- Project of the Spanish ministry for research and innovation
 - Basic research on flexible (linear) regression models for imprecise data
- CORRELATE.AT
PROJECTS
(INCOMPLETE LIST)
- Grafikprogrammierung**
For IQS 2021 -
- Coding of specific non-trivial automatable R-graphics
- IPTV pattern detection**
For A1 2019
- Pattern detection in and classification of IPTV data
 - Graphical illustration of the main results
- HR-Analytics**
For ÖBB 2018
- Statistical data analysis concerning ten predefined hypotheses
 - Graphical illustration of the main results
- Statistical Data Analysis in Medicine**
For Landeskrankenhaus Amstetten 2016 - 2017
- Statistical data analysis concerning MAST in obese patients
- Confirmed by customer**
For T-Mobile Austria 2015
- Hexagonal binning and aggregation of speed measurements by customers
 - Illustration of the results
- Breitbandanalyse Bundesland Salzburg (together with SBR-net Consulting AG)**
For the province of Salzburg, Austria 2015
- Analysis of the status quo
 - Collection, cleaning and aggregation of all relevant data sources on a 100 × 100 meter grid

Analysis CTU Data

For Specure (as subcontractor in their project with Czech Telecommunication Office) 2015

- Plausibility checking, heavy user filtering, data aggregation and visualization
- Implementation in R and SQL

Opening Hours Illustration

For Stadtgemeinde Baden, Austria 2015

- Analysis of the collected data and summarization of the most important findings in pretty and easy to interpret graphics
- Publication of the results in the *Baden Passion* magazine

CONSULTING &
FREELANCE
EXPERIENCE
(INCOMPLETE LIST)

A1 Telekom Austria, Vienna, Austria 2008 - 2012

- Assistance and support in the development of automated reports for ticket flows
- Data mining radius data
- Simulation and Backtesting Voice/mobile broadband with selectable geographical parameters, Implementation in R
- Development of a Q-Voice sampling plan for Austria based on the geographical distribution of the population, Implementation in R
- Data mining Scanner-data
- Assistance and support in the development of automated mag backbone reports via Sweave
- Assistance and support in the development of automated TEMS reports for all mag countries

Allianz Insurance Austria, Vienna, Austria 2006 - 2010

- Development of a forecasting model for losses caused by hail based on POH grid-data from ZAMG Austria, Implementation in R
- Geographical (meteorological) risk-zoning of Austria concerning natural hazards, Implementation in R
- Development of a stochastic model for flood damages given right-censored historical data, Implementation in SAS and R
- Analysis of the interrelation of empirical flood damages and the Austrian HORA project (HOchwasser Risikozonierung Austria)

EDUCATION

University of Salzburg & Vienna University of Technology

PD, Habilitation in Mathematics, May 2018

- Thesis title: *New perspectives and recent results in dependence modeling and copulas*

PhD, Mathematics, April 2006 (with distinction)

- Thesis title: *Fuzzy Probability Distributions*
- Adviser: Prof. Dr. R. Viertl

MSc, Mathematics, September 2001 (summa cum laude)

- Thesis title: *Iterated Function Systems and Chaos Game*
- Adviser: Prof. Dr. M. Blümlinger

APPOINTMENTS

University of Salzburg, Salzburg, Austria

Full Professor since 12/2020

- Department of Mathematics
- Basic research, applied projects and teaching in the field of probability theory and statistics

Associate Professor 07/2018 - 11/2020

- Department of Mathematics
- Basic research, applied projects and teaching in the field of probability theory and statistics

Assistant Professor (with qualification agreement) 10/2014 - 06/2018

- Department of Mathematics
- Basic research, applied projects and teaching in the field of probability theory and statistics

Univ.Ass. Postdoc 10/2013 - 09/2014

- Department of Mathematics
- Basic research and teaching in the field of probability theory and statistics

European Centre for Soft Computing, Mieres, Spain

Associate Researcher 01/2011 - 07/2013

- Research Unit for Intelligent Data Analysis
- Basic research in the field of probability theory and statistics: copulas, dependence measures and statistics with imprecise data
- Applied research in statistics/data mining: applied projects with local companies, with emphasis on forecasting problems

Postdoc Researcher 07/2008 - 12/2010

- Research Unit for Intelligent Data Analysis
- Basic research in the field of probability theory and statistics: copulas, dependence measures and statistics with imprecise data
- Applied research in statistics/data mining: applied projects with local companies, with emphasis on forecasting problems

Vienna University of Technology, Vienna, Austria

Postdoc Research Assistant 01/2006 - 06/2008

- Institute for Statistics and Probability Theory
- Research project: Decision-making based on imprecise information, supported by the National Bank of Austria

National Bank of Austria, Vienna, Austria

Employee (part-time, 28 hours/week) 02/2004 - 12/2005

- Balance of Payments Division, Department of Statistics
- Financial Statistics Quality Control

Hutchison H3G 'Drei', Vienna, Austria

Employee (part-time, 20 hours/week) 09/2003 - 01/2004

- Department for Regulatory Affairs
- Invoicing and Reporting

University of Vienna, Vienna, Austria

Research Assistant (partially part-time) 11/2001 - 08/2003

- Institute for Mathematics
- Research in Ergodic Theory

LANGUAGE SKILLS Fluent in German and English
Intermediate in Spanish
School level in Latin
